EUROPEAN UNIVERSITY INSTITUTE
VIA DELLE FONTANELLE 18
50014 SAN DOMENICO DI FIESOLE
ITALY

WEBSITE: www.johannesjfischer.com
EMAIL: johannes.fischer@eui.eu
NATIONALITY: GERMAN

Placement Officer

PLACEMENT OFFICER David K. Levine
CONTACT david.levine@eui.eu / (+39) 0554685913

Research Interests

PRIMARY Macroeconomics, Monetary Policy, Inflation Expectations
SECONDARY Applied Macroeconometrics, Corporate Finance, Bayesian Methods

Education

2017/09 - ONGOING	Ph.D. in Economics, European University Institute , Florence, Italy Thesis: <i>"Essays in Monetary and Financial Economics"</i> Advisors: Ramon Marimon & Edouard Challe
2017/09 - 2018/08	M.Res. in Economics, European University Institute , Florence, Italy Thesis: <i>"Forecast Divergence and Monetary Policy"</i>
2015/08 - 2017/06	M.Sc. in Economics, Stockholm School of Economics , Stockholm, Sweden Thesis: <i>"Euro Area Sovereign Bond Spreads, Risk Aversion & Monetary policy"</i>
2011/10 - 2015/06	B.A. in Politics, Philosophy and Economics, Universität Witten/Herdecke , Witten, Germany

Job Market Paper

"De-Anchored Inflation Expectations & Monetary Policy": I use an estimated New Keynesian model with endogenous forecast switching to study the conduct of monetary policy in a model with an endogenous degree of expectations anchoring and to model the resulting movements of long-term inflation expectations. In this model de-anchoring leads to increased inflation volatility and can cause deflationary spirals when the zero lower bound (ZLB) is binding. This can be prevented by an asymmetric monetary policy rule which responds more aggressively to below-target inflation. Price Level Targeting on the other hand can increase the risk of deflationary spirals near the ZLB.

Working Papers

"Monetary Policy and Mergers & Acquisitions" (with Wolfram Horn): We analyse the effect of monetary policy on U.S. mergers and acquisitions (MA) activity. We find that aggregate MA activity decreases significantly in response to an increase in interest rates. We confirm this result on the firm level: the probability that a given firm initiates an acquisition decreases significantly following an interest rate increase. The acquisition likelihood falls significantly more for relatively more financially constrained firms. MA transactions are, on average, associated with positive abnormal returns for the acquiring firm, suggesting that expansionary monetary policy can facilitate beneficial capital reallocation by enabling more MA activity. At the margin, however, expansionary monetary policy leads to lower average abnormal returns as more constrained firms engage in MA.

Work in Progress

"Bank Reactions to Stress-Test Constraints" (with Natalie Kessler): This paper studies banks' equity and lending choices subject to forward looking stress-test constraint, which ensures that banks are sufficiently capitalized even in severely adverse economic conditions. We find that a more severe stress-test scenario leads reduced equity in low return states, but boosted equity reserves in high return states. This increased procyclicality of equity however, comes at the cost of overall lower lending levels.

"International Transmission of Monetary Policy through Firm Subsidiaries"

Teaching

2020/11	TA Monetary Policy Transmission , <i>Carlo Altavilla & José-Luis Peydró</i> , Executive Training (Online) at the Florence School of Banking & Finance
2020/02 - 2020/04	TA Macroeconomics II , <i>Jesús Bueren</i> , Ph.D. Core Course at the EUI
2019/11 - 2019/12	TA Endogenous and Exogenous Incomplete Markets , <i>Arpad Abraham</i> , Ph.D. Elective Course at the EUI
2018/11 - 2019/01	TA Macroeconomics I , <i>Jesús Bueren</i> , Ph.D. Core Course at the EUI

Research and Professional Experience

2021/04 - ONGOING	Research Assistant , <i>Nicolas Petit (EUI)</i> , Florence, Italy
2021/09 - 2022/08	Visiting Researcher , <i>University of Vienna</i> , Vienna, Austria
2016/08 - 2016/09	Intern , <i>Oxera Consulting LLP</i> , Berlin, Germany
2012/10 - 2015/06	Student Assistant , <i>Open Europe Berlin gGmbH</i> , Berlin, Germany
2015/04 - 2015/06	Intern , <i>Allianz SE</i> , Munich, Germany
2014/07 - 2014/09	Intern , <i>Frankfurter Allgemeine Zeitung GmbH</i> , Frankfurt, Germany

Presentations (incl. scheduled)

2021	Canadian Economic Association Conference 2021 , June 2021; Swiss Society of Economics and Statistics , June 2021; EEFS 2021 , June 2021; International Panel Data Conference 2021 , June 2021; EcoMod2021 , July 2021; Central Bank Research Association Conference 2021 , July 2021; Money, Maro Finance Society Conference 2021 , September 2021; Verein für Socialpolitik Conference 2021 , September 2021; German Finance Association Conference 2021 , October 2021; Italian Economic Association (SIE) , October 2021; VGSE-Macro-Seminar , October 2021
------	---

Workshops & Additional Coursework

2019	Recent Advances in Bayesian Macroeconometrics (Frank Schorfheide) , Study Center Gerzensee, Switzerland; Inference in Macro Models: From Big Data to Structural Analysis (EABCN Training School, Domenico Giannone & Giorgio Primiceri) , Universitat Pompeu Fabra, Spain; Challenges in Understanding the Monetary Transmission Mechanism , EABCN & National Bank of Poland, Warsaw, Poland
------	---

Scholarships

2020/08 - 2021/08	Ph.D. Completion Grant , European University Institute
2017/09 - 2020/08	Ph.D. Scholarship , German Academic Exchange Service
2016/10	SSE Study Scholarship , Stockholm School of Economics
2013/09 - 2014/05	PROMOS-Scholarship , German Academic Exchange Service

Language & Software Skills

LANGUAGES	GERMAN (native), ENGLISH (fluent), ITALIAN (B2)
SOFTWARE	MATLAB, STATA, DYNARE, L ^A T _E X, R (basic)
